HARD SKILLS

- Solid grasp of computer science fundamentals such as:
 - Data structures, control structures, and recursion
 - Algorithms and its analysis
 - Object-oriented programming
 - Operating Systems
 - Computer Networks:
 - Protocols, OSI/TCP-IP models, routing, DNS, HTTP/HTTPS etc
 - Databases:
 - Data modeling, SQL etc
 - Information Security:
 - Cryptography, authentication, security practices etc
 - Software Engineering:
 - Software development life cycle, agile methodologies, design patterns etc
- Code review, technical documentation and clean code
- UI/UX, Figma and Photoshop

EXPERIENCE

○ FRONTEND DEVELOPER

Lyncas (IT outsourcing company)

aug/2022 - jan/2024

Hard skills:

- Developed systems for the company's clients by writing stable and testable code using Vue, React, and TypeScript.
- Used CI/CD (Continuous Integration/Deployment Pipelines), actively participated in pull requests, conducted code reviews, and maintained technical documentation.
- Maintained a focus on writing clean and adhered to commit message patterns for effective version control;
- Company's agile methodology: SCRUM

Soft skills:

- Cultivated good relationships within the team, fostering a collaborative and productive work environment.

○ FRONT-END DEVELOPER & UI DESIGNER

Mais Futuro (private pension company)

aug/2020 - jul/2022

- Prototyped with Figma, conducted design presentations for a new interface that brought greater user permanence in the app and increase sales by 10%
 - Access the wireframe at: [behance.net/bridgetocross](https://www.behance.net/bridgetocross)
- Designed and developed friendly e-mails campaign

SOFT SKILLS

- Strong critical thinking and problem-solving skills
- Excellent organizational and team collaboration abilities
- Emotional intelligence and conflict management
- Empathy

EDUCATION

SOFTWARE ENGINEERING

Bachelor - Descomplica
2024-2028

SYSTEMS ANALYSIS & DEVELOPMENT

Technician - Descomplica
2023-2026

COURSES

NETWORK ARCHITECTURE

Udemy - Gabriel Torres
jul/2022

COMPUTER MAINTENANCE

Microlins
2018

LANGUAGE

- Portuguese (Native)
- English (Advanced C1)
- German (Intermediate B1)

- Refactor the old PWA application code with VueJS using reusable components and improving code readability
- Company's agile methodology: SCRUM & Kanban

After leaving the company in August 2022, I worked with them sporadically as a UI designer, prototyping new screens on Figma and Proto.io.

FULL-STACK DEVELOPER (SENIOR)

Freelancer

aug/2018 - jul/2020

Over a span of 2 years, I delved into a diverse range of freelance projects, honing my skills and expanding my knowledge in areas including:

- Version control management with Git
- Front-end of static pages using HTML, CSS, and JS
- Back-end with Java and Python
- Full-stack development with PHP/Laravel for:
 - E-commerce platforms, blogs, and websites
- Crafting responsive templates for:
 - OpenCart
 - WordPress
- Database structuring and UML modeling
- Project deployment management via FTP

Each freelance project allowed me to develop versatile skills and gain a comprehensive understanding of the software development life cycle. Also, the direct interaction with clients and teams strengthened my communication skills and ability to handle pressure within tight deadlines.
